Each sublicense granted by Licensee must be (a) in the form of a written agreement and shall expressly prohibit any reverse engineering, reverse compiling or otherwise deriving source code from the Programs and (b) contain provisions which are at least as protective of Licensor, the Confidential Information and Licensor's intellectual property rights as contained in this Agreement.

3.3 Updates and Releases

The license granted herein shall be deemed to include and extend to any Updates and Releases to the Source Code or Object Code which Licensor may, at its sole option, choose to provide to Licensee.

11 Injunctive Relief

Licensee acknowledges that in the event of a breach by Licensee of any of the provisions hereof Licensor will not have an adequate remedy at law. Licensor shall therefore be entitled to seek injunctive relief against any such breach by Licensee in any court of competent jurisdiction.
